#### Toliver Topics.

We shall never be sorry for love,  
For the words that are patient and sweet,  
For the harshness repressed,  
For the anger unguessed,  
For the grace that is swift to entreat,  
We shall never be sorry for love,  
To the old or the young ones given;  
We shall never be sorry for love,  
That went to Our Father in Heaven;  
For meekness and cheer,  
When the outlook was drear,  
For Faith when our courage was riven.

Oh, what a blessed rain fell here Sunday!

Joe Lewis and Jim Elkins made a flying trip to White Oak on Monday.

Coal digging and wood cutting are the order of the day—preparing for winter.

Kelse Crouch was visiting his sister, Mrs. Henry Murphy, on Grassy, Sunday.

Miss Lou Ward, a charming belle of Toliver and one of the most successful teachers in Wolfe county, as well as the most efficient postmistress Campton ever had and one who has charmed more masculine hearts than any girl in Wolfe county, was visiting relatives and friends here Saturday and Sunday.

Hon. John W. Taulbee, Democratic candidate for superintendent of common schools, was here Saturday presenting his claims. John is making an active canvass and the one that beats him will have to hustle. He is a perfect gentleman in all the word implies.

Hon. Asa B. Pieratt, Democratic candidate for representative from this, the 91st, legislative district, is a clever, witty, genial, bright man, and would make a legislator of whom all Kentucky would be proud. It is the duty of every Democrat to vote for him, and many Republicans will do likewise. I will say that a more generous hearted man than Asa B. Pieratt never breathed the pure atmosphere of grand old Kentucky.

Hon. A. D. Roberts, Democratic candidate for state senator in this district, is a nice man and would make a good senator. He has fought many battles for his party and now asks to be remembered by electing him to the senate of Kentucky. Bro. Roberts has preached a great many funerals in his day and he will preach the funeral of Dr. B. D. Cox on the first Tuesday in November.

### PREVENTION OF DIPHTHERIA.

#### Circular Issued By the State Board of Health.

To the health officials, physicians and people of Kentucky: The unusual prevalence of diphtheria in many sections of the state makes it important that the attention of our health officials and the people should be called to the best known methods for preventing the occurrence or restricting the spread of the disease.

Diphtheria is both contagious and infectious, attacking persons of all ages, but affecting children much more frequently than adults. It may be communicated from the sick to the well directly, or by means of persons, clothing, toys, pet animals, or other things infected by the sick or sick room, and especially by cups or other articles which pass from mouth to mouth. In a sense it is a "filth disease," sometimes seeming to originate spontaneously in the presence of bad sanitary surroundings, and certainly spreading more rapidly and being most fatal in such localities.

Diphtheria is a preventable disease. Proper preventive measures are almost invariably followed by the limitation of the disease to the first case or cases. When it gets away from the primary cases and makes its escape upon the community, somebody is to blame. The sooner we accept this as a sanitary maxim the sooner we shall begin to do our duties as individuals and as communities.

When it is known or suspected that a person has diphtheria he should immediately be separated from the rest of the family, and put into a sunny, well ventilated and plainly furnished room, preferably on the upper floor, and as disconnected as possible from other rooms, especially the living and sleeping rooms of children. No other person, besides the nurse and the necessary attendants, should be permitted to enter the room, and they should take every precaution not to carry the infection to others.

The state bacteriologist, Dr. J. E. Cashin, at the hospital college of medicine, Louisville, will make prompt examination and report of any suspected material sent to him, thus setting to rest any doubts as to diagnosis. Upon application he will send mailing cases, containing sterilized tubes and mops, for collecting and transmitting cultures from any suspected case. The work will be done without charge for any health officer or physician in the state. The board recommends the use of anti-toxine in every case, as soon as it is seen, without waiting for the result of the bacteriological examination.

At the same time the health officer of the town or county should be notified, and he should co-operate with the physician and family to keep the disease from spreading. A blue flag, or a card, with diphtheria on it, in large, plain letters, should be placed in a conspicuous position on the house. No child or person having the care of children should be permitted to enter the house.

The discharge from the throat, mouth

and nose, are exceedingly poisonous, and should be received on soft cloths and immediately burned, or immersed in a solution of chloride of lime, six ounces to the gallon of water. The bed and body linen, immediately upon removal, should be boiled for half an hour or immersed in the chloride of lime solution for 24 hours. In no case should such clothing go into the family washing.

No person from a house where there is diphtheria should go into public assemblies, as churches, fairs or concerts, and especially schools.

Persons who have had diphtheria should not mingle with the public for some time after the last trace of the disease has left the throat and nose, and only after all their clothing has been thoroughly washed or disinfected. No child from a house where the disease has prevailed should be permitted to enter school except upon the certificate of a physician that it is safe to do so.

In case of death the body should be wrapped in a sheet saturated with the chloride of lime or bichloride of mercury solution, and put in a tight coffin. The funeral should be strictly private, and in no case should children, or those having the care of children, be permitted to attend.

After death, or complete recovery, the room should be disinfected, under the supervision of the health officer or a competent physician. First, mattresses, comforts and other like things badly soiled should be burned. Such clothing and bedding as can be washed should be boiled, or placed in the chloride solution as above directed. To disinfect the room proceed as follows: Arrange the contents of the room so as to expose the greatest amount of surface to the action of the disinfectant. Close the apartment as completely as possible, stopping all openings as chimney flues, keyholes, etc., through which the gas might escape. Thoroughly dampen the floor and bedding. For a room ten feet square use three pounds of sulphur, moistened with alcohol, in an iron pan placed in a tub containing a few inches of water to avoid the danger from fire. When certain the sulphur is burning well, leave the room, close the door and allow the room to remain tightly closed for ten or twelve hours. Afterwards the room should be thoroughly ventilated for several hours, and then the floor, and ledges over the windows and doors, and other places likely to retain dust, should be washed with the chloride solution and then with soap and hot water. The house and premises generally should be put in the cleanest and best possible condition.

To be effectual the precautions here suggested should be rigidly observed. Imperfect isolation and disinfection are worse than useless, giving rise only to a false sense of security.

County and municipal boards of health have full authority under our laws to enforce these rules, and will fall short of their duty if they fail to do so.

Copies of this circular, and of similar ones in regard to the prevention of scarlet fever, typhoid fever and consumption, for free distribution, can be had upon application to the board at Bowling Green, Ky.

By order of the board,

J. M. MATHEWS, M. D., Pres.

J. N. McCOORMACK, M. D., Sec.

#### The Best Family Cathartic.

For a general home medicine, Hood's Pills are unequalled. They were prepared for family use and they have been found entirely satisfactory wherever they have been used. Their sale has gradually extended until today the demand for them leads the trade to look upon Hood's Pills as "the coming pill." They relieve and cure so many troubles that they are really a whole medicine chest. They are mild and yet efficient.

#### How Weak I Feel.

I have called so often and long that I feel tired. Now don't be mistaken, for if you don't come and settle your notes and accounts by October 20, you are sure to feel weak and sick, too. I mean every one who owes me a copper. Will take anything that I own, eat, wear or trade again.

Yours,  
DR. JOHN A. TAYLOR.

## THOUGHTOGRAPHS

George W. Gourley, of Beattyville, Republican candidate for Circuit Judge of this district, boasts that "The meanest Republican in all the land is far better than the best Democrat."

THE HERALD will live and proclaim the news to the world long after the "banner" has been furled and placed with other trophies on the shelf.

THE Republicans of the Montgomery-Menefee legislative district have nominated W. R. Tabor as their candidate to oppose J. H. Williams for representative.

WM. F. SCHOOLER, well known in this section and now editor of the Morehead Advance, has been nominated for the legislature by the Republicans of the Bath-Rowan district.

WHEN a defeated candidate attacks the ticket on which he tried to get a place and failed, the public readily understands it and properly discounts his statements. A ticket that would have been good enough to command his support if he had been nominated as a part of it, is good enough to withstand his attacks after his defeat. Such attacks are in bad taste, and they show bad judgment.

REPORTS from the registration in all the larger cities throughout the state show great Democratic gains and point to an old time Democratic victory at the coming election.

It is now rumored that the war in Cuba will soon come to an end. Gen. Weyler has been recalled by the new premier of Spain, Senor Sagasta, and Gen. Blanco appointed his successor.

THE yellow fever scourge is still raging in the south with alarming results. New cases are springing up daily, and the number of deaths is increasing. In the fashionable districts of New Orleans the scourge is more severe than in the squalid quarters of the negroes.

MISS MARGARET INGLES, of Paris, who has been favorably mentioned for the position of state librarian, has associated herself with the "Rooks' Players" dramatic company. Miss Ingles was formerly a member of Jacob Litt's "In Old Kaintuck" company, and is well known in dramatic circles.

THE pistol with which Guiteau shot President Garfield, on July 2, 1881, has been recovered and is now the most valued relic in the police department at Washington. It is a 44-caliber British bulldog. Fifteen years ago it was carried away by District Attorney Corkhill and has been missing since that time.

ONE of the most dastardly outrages ever committed on Kentucky's fair soil, occurred the other day at Newport when eleven men, representing themselves as policemen, took Mrs. Thomas Gleason, a young married woman, from her husband as they were walking along the street and criminally assaulted her. Five of the fiends were arrested, and being identified by Mrs. Gleason, they were spirited away to Maysville jail to prevent a lynching. Several more have been arrested, and all are held without bail to await the action of the grand jury which convenes at Alexandria on the 19th inst. It is thought that one or two will turn state's evidence.

### A CARD.

To the Voters of Wolfe County, Ky.  
I know your minds have been tried to be prejudiced at me by Mr. James H. Sebastian, who is father in law of Mr. Lacy, my opponent, by lying by telling you that I had been indicted in the Breathitt circuit court for forgery and for malfeasance and misfeasance in office. Now, for your benefit, and also for my own, I have put myself to the trouble of going and securing certificates from the clerks of Breathitt county, which state the facts of the matter, and if you are in doubt of what kind of superintendent I made, I can only refer you to the good citizens of Breathitt county, and I have been teaching in the best schools of this county for seven years, or ever since I have been a citizen of this county, and if there any doubt in your mind as to my earnestness and honesty as a school worker, I will refer you to the people in districts in which I have taught, and I can assure you if elected that your children's educational interest will be safely guarded by me, for I know that there is no man that has a heart that is more interested in the welfare and promotion of the public schools than I am.

Yours respectfully,  
JOHN W. TAULBEE.

Here is a new remedy for sweeney. One of our subscribers says that if you will take a toad and rub the affected parts that the rubbing will create a lather and cure the disease every time. All that is left of the toad, however, is the hide and legs. ### Worthy Tribute to a Good Man.

The Rev. Luther E. Mann, the new pastor of the M. E. church here, and his wife, arrived in Morehead last Saturday, from Hazel Green, in Wolfe county. The gentleman is very favorably impressed with our city. He was in Hazel Green only a year, but it was a favorable year for the growth of the M. E. church. There were 65 additions to the membership, and the contributions for religious work were six times what they were the previous year, facts which speak well for the energy and devotion of Mr. Mann to the cause of Methodism. The reverend gentleman is on "the sunny side" of life, being only 32 years of age. He is a native of Nicholas county, this state. He was a student at Asbury college, at Wilmore. \* \* \* We think Morehead people will like the gentleman when they have made his acquaintance. — Morehead Advance.

## John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure, and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera mortus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by J. T. Day.

### HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

### WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention THE HAZEL GREEN HERALD and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland.
